## LOCAL JOTTINGS

Work on the new telephone exchange has started this week.

Fred Davis, the Independent Conservative candidate, held a rousing meeting at Standard last week.

The departmental examinations for grades 8, 9, 10, 11 and 12 will be held in Strathmore on June 18th.

Anglican Church services for Sunday next are as follows: 8:30 Strathmore, 11 o'clock. Nightingale; 3 o'clock, Ardenode; 7:30 Strathmore.

The Presbyterian Ladies Aid met at the home of Mrs. F. R. Lilly on Tuesday.

Mr. Charles Moore, at one time station agent here, has donned the khaki, and left Calgary last week for his home in Nova Scotia, preparatory to going overseas.

Rev. J. P. Berry was in Calgary last week attending the Methodist Church Conference.

"Freckles" drew a good crowd at the Opera House on Friday last. Taking into consideration the lack of stage accommodation, the absence of proper lighting, effects and a few other things, the play was not too bad for a small town.

At the Police Court last week, Billy Van Oof, was charged with creating a disturbance in the Methodist Church during the evening service on Sunday May 27th. Constable Symons, Provincial Police, prosecuted. Defendant was fined \$3.00 and costs.

The Union Bank of Canada are opening a branch at Carleton Place. The branch will be temporarily under the supervision of Mr. J. Van Tighem, manager of the Strathmore Branch. Mr. J. F. MacAdam will be temporarily in charge. The opening of this branch will prove of great benefit to the residents of the Carleton District.

According to the 1916 census the population of Strathmore was 511. From the reports we rather from our M.D., from time to time, we should imagine it is considerably over that number now. On looking up some of our old records we find that in the year 1912 the population was estimated at 1200. Whether the figure is by mistake we do not know.

A high commission was paid to our fair on Monday. A stranger from town with a tin lizzie came in the p.m. and seeing our genial bank manager on the street asked if this was Calgary. With many smiles he

### KYANIZE

The very best finish for Floors, Furniture and all kinds of Wood-work. In all the leading finishes.

Give it a trial and you will want it again.

STRATHMORE HARDWARE

was informed that he has not yet arrived at the city stage (although we have hopes of doing so) and that at present we were classed under the village list under the name of Strathmore. The stranger then remarked that on approaching our town it looked so large that he thought it must of necessity be Calgary. Was he in earnest or was he one of those harmless, struggling little burgs? Possibly it was the sight of our park that gave him the inspiration. It is a cinch that it was not the street lights or the motor fire apparatus that caused him to make the mistake.

### Excursion to Banff Wednesday June 20

Now the election is practically all over, the chief topic of conversation is the trip to Banff. And from what we can already gather, Strathmore will be like Goldsmith's "Deserted Village" on June 20th. The beauties of Banff are but little known to the majority of people, but it has been stated by men of travel that the scenery in this Alberta mountain resort equals anything to be found in Europe. To those who live on the prairie a trip to the mountains is a great change, and comes as a welcome break in the monotony of prairie life. The sight of the trees will also bring back to many memories of distant lands. Banff offers many attractions to the holiday seeker, floating on the river, bathing in the sulphur springs, drives up the mountain side, the Park with its herd of buffalo, and deer, and a hundred and one other things that all help to make an enjoyable day, which, in the majority of cases is only too short. To enable the citizens of Strathmore and district to have an opportunity of seeing "Beautiful Banff" the Strathmore Union Sunday School have chartered a special train for Wednesday June 20th. Those who desire to take advantage of the extremely low rate (\$2.40 from Strathmore) should get their tickets as early as possible from Frederick H. Tucker. The train will start from Strathmore and leaves at six o'clock. Full particulars will be found on posters and in advertisements in another column. All aboard for Banff on June 20th.

## BUY AN IRRIGATED FARM FROM

THE CANADIAN PACIFIC RAILWAY

BECAUSE—  
Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally, but every year.  
Irrigation makes possible the successful culture of alfalfa, the king of fodders, which insures good returns in dairying and mixed farming.  
Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.  
Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the years that it has been tried having absolutely demonstrated its success wherever intelligently applied.

You can buy irrigated land from the Canadian Pacific Railway at prices up to \$50 per acre, with twenty years to pay and the privilege of a loan of \$2,000 for improvements (6% interest) no principal after first payment until end of fourth year, reduced interest if settlement conditions are complied with, and no water rental for first year. Contract can be paid off before maturity if desired.

This is the most liberal offer of irrigated farm land on record. For full particulars, apply to  
ALLAN CAMERON, General Supt. of Lands  
Canadian Pacific Railway, Dept. of Natural Resources 1020 First Street, N. W., Calgary, Alberta

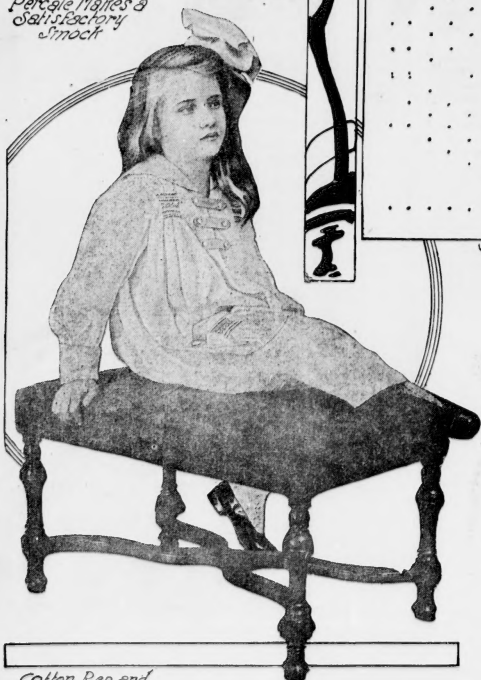

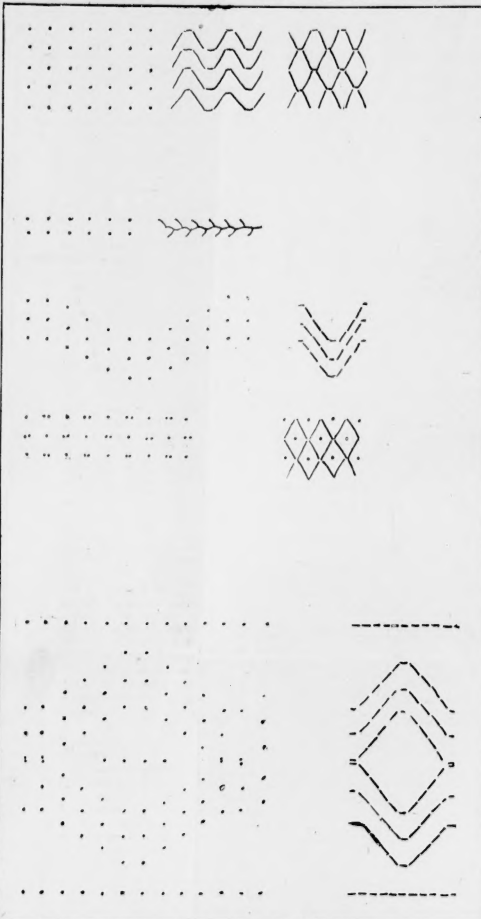

# Every Little Girl Should Have a Smocked Frock

*Percale Makes a Satisfactory Smock*

*Cotton Rep and Chambray*

*Some Simple Smocking Patterns*

**S**MOCKING has been recognized as a trimming especially suited to children's frocks. Since it is considered in such a light, and since it is so easily done, it is almost imperative that every little girl should have at least one smocked frock in her little wardrobe. This does not mean that all children will look as they are clothed in uniform—there are too many forms of smocking to effect such a result. Once you have been convinced of the value of smocking your attention is drawn to the style of frock on which the smocking is here introduced. It is the smock, and it is the type of frock that is slowly supplanting the middie frock or sailor suit which was a part of every youngster's outfit for summer or winter.

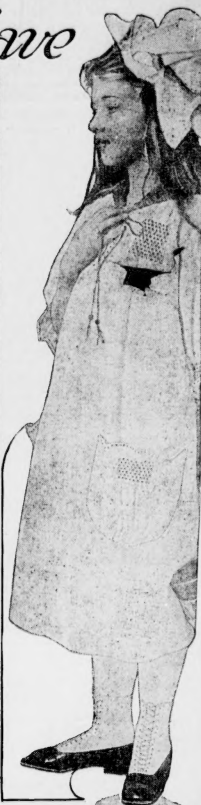

A very attractive feature of these frocks is that they are made of material that will prove particularly suitable for summer. Where could one find anything cooler than cotton crepe? Then, too, think how inexpensive the material is. Cotton crepe has been selected for the green-and-white model. The material has tiny lines which are quite an assistance to the one smocking the material. The lines make it unnecessary to have guiding marks. A square of the smocking appears at the back just beneath the square collar, which, by the way, is made of chambray. Observe that the verge of heads has extended to juvenile styles. Two heads are employed to finish the green neck cord.

Of white cotton rep is the smock trimmed with tabs of blue linen. The color note is repeated in the square collar, the cuffs, at the top of the pockets and in the smocking. In this instance the smocking takes the form of waves and outlining.

A sack gives a dress-up touch to a charming model made of white crepe. The sack is made of old-rose linen of a very soft quality and is weighted with linen balls. The collar and the novel pockets repeat the material. The short sleeves are given fullness by the cover of smocking which form cuffs. This model, like its three sisters, is of the slip-over-the-head type and has its short line of opening indicated by big pearl buttons.

Another successful use of wavy and straight lines of smocking is seen on the tan-and-white model. The smocking trims the front, back and sleeves of the smock. The white bands at the tops of the pockets are decorated with feather-stitching. Percale is the material selected for the frock and for its trimmings. Surely one could not desire a stouter material for hard service. The use of colored gingham is just another one of these little touches that count for so much.

After seeing the effect of the smocking on these frocks every woman will be filled with the desire to make use of the smocking designs accompanying the models.

*Successful Use of Linen Trimmings*

*Ph. Darden*

The Publisher is not responsible for opinions expressed by correspondents.

Are we to have Conscriptio? This seems to be the leading question of the day in the Dominion. Men are needed. If the winning of the war means that we have to send every eligible man then we must send them. If we cannot get the required number under the conscription system, then conscription is the only remedy. The question has evoked quite a lot of demonstration in certain quarters. Some are in favor of conscription of men provided that wealth is conscripted also. But we have yet to see a plan or scheme brought forward by those who are in favor of the latter (conscription of wealth) as to how they propose conscripting wealth. Possibly those who are moaning the project have in view that old, old idea of the "redistribution of wealth." Possibly they have in mind a graduated income tax. Just how they propose working this conscription of wealth would be interesting to read.

While talking of the possibility of conscription we would draw our readers' attention to an article appearing in this week's issue of the pen of Sergt. John Mackenzie, the proprietor of this journal. The article is interesting, not only because it comes from the pen of one of our own boys, but because it describes in detail the battle of Vimy Ridge, in which the Canadians covered themselves with glory and made a name for themselves that will go down in history. Many Alberta boys and among them many from Strathmore took part in that great fight. We feel sure that our readers will consider it a disgrace and a shame if we fail to send more men to carry on the work done at Vimy Ridge in which so many of our bravest and best have fallen.

By the time our next issue appears the elections will have settled the fate of the present government. Whether they are to remain in office or make room for a fresh lot. Whichever way it goes we shall soon forget all about it, and we settle down to our usual humdrum everyday life. Public excitement does not run very high, that is as far as our own constituency is concerned. Possibly the electors are like Beer Rabbits "lyin' low and sayin' nothin'."

### Town Council

A meeting of the Town Council was held in the Town Hall on Tuesday evening, there being present: Mayor Lambert, Councillors Givins, Butler and Zerkle, the Secretary, Treasurer, G. H. Hill and the Town Solicitor, T. M. Wears.

The minutes of the previous meeting were read and adopted on the motion of Coun. Butler, seconded by Coun. Zerkle.

Coun. Butler moved that the Chairman, (who is having the new hotel built) be requested to present his agreement re the cement foundation for the hotel at the next regular meeting of the Council. This was seconded by Coun. Zerkle. The motion was carried with Coun. Givins voting against.

A letter was read from the Secretary of the Alberta Urban Municipalities in answer to a letter written by the Town Secretary as to the work of the Union. Coun. Butler moved and Coun. Givins seconded that the Secretary forward the sum of \$10.00 as membership fee to the above union.

A letter was read from the promoters of the B.C. Excursion asking if the Council would declare a public holiday as in former years. The Mayor thought it was a question for the merchants themselves to decide as to whether they want to close for the day. He also thought it rather unfortunate that the day selected for the excursion should conflict with the Departmental Examinations which were being held at the schools, and he was strongly opposed to having on the 20th. This would deprive about 35 children (and the trip was got in for the children) from taking part in the excursion. It would also prevent many parents from attending. He thought too that it was also the opinion of a great many of the parents. A free-for-all discussion then took place, and after it was all ended Coun. Givins moved and Councillor Butler seconded that a Public holiday be proclaimed. This was carried, the Mayor, Councillors Butler and Givins voting for the motion. Coun. Zerkle did not vote either way, preferring to remain neutral.

A letter was read from Mr. H. B. Seymour making an offer to rent lots 19 and 20, Block 1, plan 4180 at \$12 per month. The Mayor stated that he had been asked by Mr. Harry Anderson to see if the lots could be let by tender. Councillor Butler moved and Coun. Zerkle seconded that the matter be left in the hands of the Property Committee with power to act.

A letter from the Kitcheners, Ont. Board of Trade with reference to the proposed increase in the Railway Tariff, was ordered to be filed. One account was read from R. A. Anderson for road work and for plowing the lots. On the motion of Councillors Butler and Zerkle the account was referred to the Public Works Committee, as there appeared to be a difference in the charges made for plowing the lots and what the Council agreed to pay.

A letter was read from the Western Canada Natural Gas Co., stating they were prepared to give the town a release from the franchise entered into in 1912. The Solicitor was instructed to draw up the necessary papers and get the release, on the motion of Councillors Butler and Zerkle.

The meeting then adjourned.

### Red Cross Notes

## How Canada broke the Wall of Granite

## Troops March Into Battle Zone

## WHILE BAND PLAYS 'BRITISH GRENADIERS'

"I was in the neighborhood of Vim Ridge for five months—on it, under it, at the back of it, and on that ridge eventually stepped one of Fritz's bullets. But I have never even been a final stop for me or it would be permanently under it now."

This statement was made by Sergeant John MacKenzie, of the Canadian Imperial Force.

Sergeant MacKenzie in the following interview gives a vivid account of the great feat performed by the Canadians when they swept over the German "impregnable" positions on the Vim Ridge during the battle of Arras. He was among the wounded in that historic onslaught.

In civil life he is the proprietor and editor of a well-known Western Canadian newspaper, the Strathmore and near Valley Standard, Alberta, Canada.

A native of Redbank, Saskatchewan, enlisted in the Canadian forces in November, 1914, and has been on active service since the middle of last year. He is now in hospital in this country.

"Vim Ridge! It is now one of the great names that will live in the history of France, Britain and Canada. Only a few weeks ago this ridge was the scene of one of the fiercest British victories in which I firmly believe will be the year of victory and the year of peace—1917."

"The ridge was a quiet place last November; it is, as quiet as places go on the Western front. A battle could go on in there and do its turn in the front line without any casualty."

"In fact, the ridge has the name of 'Fritz's resting place.' Trenches were dug up there and the bodies of the dead were found in the trenches. It was a very quiet place."

"The ridge is like a giant's head, with a thousand and thousands of trenches. The trenches are in the shape of a 'Y' and are very deep. It is a very quiet place."

"That is speaking of the past. Now, however, the ridge is a very quiet place. It is a very quiet place. It is a very quiet place."

"The ridge was heavily mined. We had mines, Fritz had mines, and there was a regular battle going on. It was a very quiet place."

"The ridge was heavily mined. We had mines, Fritz had mines, and there was a regular battle going on. It was a very quiet place."

"The ridge was heavily mined. We had mines, Fritz had mines, and there was a regular battle going on. It was a very quiet place."

"Germans were coming back with us, and without, and travelling in the most secret of their own shell-fire. It was a very quiet place."

"It was a glorious victory. Artillery, infantry, and aircraft all worked in unison, and consequently the Germans were small for the results attained."

"The day of the day Vim Ridge was our day. It was a very quiet place."

"Young 'Annie had broken that wall of granite—to quote the argument. It was a very quiet place."

"Before that trench of knee-deep, bone-leathered mud from the plains and mountains of the Far West, it could hardly be properly said to have held out thirty minutes after the signal to 'go over' had been uttered in the Dominion trenches."

"The statement was made by Sergeant John MacKenzie, of the Canadian Imperial Force."
